## The Company

L'Azienda Giuliano Tartufi nasce da un hobby e da una passione di un giovanissimo Giuliano Martinelli che, già nei primi anni 80', prima di iniziare il turno in fabbrica, andava ogni mattina nei boschi a cercare tartufi insieme alla sua inseparabile cagnolina.

Dal 1991 Giuliano decide di seguire la sua passione per dedicarsi esclusivamente alla ricerca e alla vendita di Tartufo fresco, prima realizzando i prodotti in un piccolo laboratorio di Pietralunga e subito dopo iniziando a partecipare ad alcune delle più importanti fiere italiane del settore: si specializzerà così nella commercializzazione di Tartufo fresco e nella produzione di specialità alimentari a base di Tartufo.

L'obiettivo della Giuliano Tartufi è ed è sempre stato, quello di trasmettere a tutti la propria passione per il Tartufo, portando le tradizioni culinarie e la tipicità del suo territorio in tutto il mondo.

La Giuliano Tartufi infatti esporta in moltissime nazioni e si impegna ogni giorno affinché i suoi valori siano trasmessi e "sposati" da tutti i suoi partner nazionali ed internazionali: non a caso l'elemento grafico che rappresenta l'azienda è un anello di tartufi, un vero e proprio simbolo di amore eterno ed indissolubile per il Tartufo.

Ecco le tappe del nostro percorso:

Nel 1981 Giuliano inizia l'attività di Tartufaio e nel 1991 si cimenta nei primi esperimenti di conserve alimentari come ditta individuale ed avviene il lancio della prima linea di prodotti alimentari al Tartufo.

Nel Maggio 1999 prende vita la Giuliano Tartufi sas con cui inizia il progetto della nuova sede.

Nel 2001 Giuliano Martinelli, insieme a sua sorella Matilde, inaugura orgoglioso il nuovo stabilimento nella zona industriale di Pietralunga.

Nel 2002 la società si trasforma in srl e vengono implementate nuove e raffinate metodologie di produzione industriali ed artigianali.

Nel 2006 vede la nascita della nuova effige dell'azienda: l'anello composto da tartufi bianchi e neri.

Nel 2014 avviene il lancio del Concept Store La Bottega del Tartufo <https://labottegadeltartufo.it> negozio monomarca altamente specializzato nella vendita di tartufo fresco e conservato.

Nel 2015 vengono consegnate dalla Giuliano Tartufi le certificazioni IFS e BRC.

Nel 2017 si attua un ulteriore ampliamento strutturale dell'azienda con un conseguente notevole incremento della capacità produttiva.

Nel 2019 il nostro prodotto Spolverata® di Tartufo viene premiato come prodotto più innovativo dell'anno in diverse parti del mondo: Dubai (Gulfood, Febbraio 2019), Parma (Cibus Connect, Maggio 2019) ed Olanda (Fiera Food Vabkeurs Specialiteiten, Netherlands 2019).

Nel 2020 Giuliano Martinelli viene nominato Cavaliere della Repubblica per il suo impegno professionale e nel sociale. Nel frattempo l'azienda continua la sua crescita e diventa la Giuliano Tartufi spa e prende vita il progetto del Truffle Carosello, la full immersion esperienziale rivolta a tutti coloro che vogliono scoprire di più riguardo questo mondo misterioso.

Nel 2021, in concomitanza del 40° anniversario nel settore dei tartufi freschi e del 30° come azienda di trasformazione, iniziano i lavori per il nuovo stabilimento.

PIETRALUNGA - UMBRIA - ITALIA

The company Giuliano Tartufi was born from the hobby and the passion of a very young Giuliano Martinelli who, already in the early 80's and before starting his shift at the factory, used to go every morning into the woods to hunt truffles together with his inseparable dog.

Since 1991 Giuliano decides to follow his dream to devote himself exclusively to hunt and sell fresh truffles. Firstly by manufacturing the products in a small laboratory in Pietralunga, and immediately afterwards by starting to participate to some of the most important Italian exhibitions in this business field: he specializes this way in marketing fresh truffles and in producing food specialties based on truffles.

The goal of Giuliano Tartufi is and always has been sharing to everyone its passion for truffles, by bringing the culinary traditions and the typicalities of its land all over the world.

As a matter of fact Giuliano Tartufi exports to many countries and is committed every day to ensure that its values are transmitted and "married" by all its national and international partners: it is no coincidence that the graphic element that represents the company is a ring of truffles, a real symbol of eternal and indissoluble love for the truffle.

Here below the stages of our journey:

In 1981 Giuliano starts the truffle hunting business and in 1991 ventures by himself into the first experiments of canned food: the very first line of food products with truffles is launched.

In May 1999 Giuliano Tartufi s.a.s. (limited partnership) comes to life, and with it the project of a new headquarter.

In 2001 Giuliano Martinelli, together with his sister Matilde, proudly inaugurates the new plant in the industrial area of Pietralunga.

In 2002 the company turns into a s.r.l. (LLC), while new and refined industrial and artisanal production methods are implemented.

2006 sees the birth of the company's new logo: a ring made up of black and white truffles.

In 2014 the launch of the Concept Store "La Bottega del Tartufo" takes place <https://labottegadeltartufo.it> an attractive single-brand shop highly specialized in the sale of fresh and preserved truffles.

In 2015 Giuliano Tartufi obtains for the first time IFS and BRC certifications.

In 2017 a further facilities expansion takes place, with a consequent significant increase in the production capacity.

In 2019 our Truffle Spolverata® is awarded as the most innovative food product of the year in different parts of the world: Dubai (Gulfood, February 2019), Parma (Cibus Connect, May 2019) and Holland (Food Vabkeurs Specialiteiten, October 2019).

In 2020 Giuliano Martinelli is appointed "Cavaliere della Repubblica Italiana" (Knight of the Italian republic) for his professional and social commitment. In the meantime, the company continues its growth and becomes Giuliano Tartufi S.p.A. (LTD). The Truffle Carosello project starts: a full experiential immersion aimed to all those who want to find out more about this mysterious world.

In 2021, in coincidence with the 40th anniversary in the fresh truffle sector and the 30th as a processing company, the works for a new plant begin.

WINTER

from December to February

Black Truffle is collected, or better "hunted", in the period from December 15th to March 15th; in the middle of the cold season, when it becomes with no doubt the protagonist of winter recipes and holidays.

### BLACK TRUFFLE

*Tuber melanosporum*

Black truffle prefers calcareous or calcareous-clayey soils with a skeleton component, which means a soil rather composed of fine, rounded particles. This variety of truffle is widespread in Italy (in the areas of Norcia and Spoleto in Umbria, in Abruzzo, in Calabria, in Basilicata and in Piedmont) but it can also be found in France in the area of Périgord (that's why it's also called "Truffe du Périgord"), where it is well known and finds great attention in cooking.

Thanks to its pleasant and very aromatic aroma, and its very particular-towards sweetish-taste, Black Truffle is much appreciated on gourmet tables. Also because it holds up very well when cooked and lends itself perfectly to enriching stuffed pasta, risotto, sauces and roasts.

Gets hunted in Autumn from the last Sunday of September to December 31st. Prices vary according to size and availability, which depends a lot on the season and the weather, where rain has a big impact.

For the development of the White Truffle the soil must be silty, relatively fertile, and with a correct balance between clay and sand. It is usually located at the bottom of a valley, but sometimes also in hilly and wooded areas. The regions known and rich in white truffles are mainly around Piedmont, Umbria, Marche and Molise.

Is the most precious variety of truffle. Featured by a clear and smooth surface, a complex and harmonious aroma and a delicate flavor with light hints of garlic. The dimensions of White Truffles may vary a lot: from those of a walnut up to those of a large apple (and exceptionally beyond).

Should preferably be enjoyed raw; in many possible pairings, to enhance its flavor and aroma. It is a must to upgrade delicate dishes such as risotto, fresh egg pasta, eggs (especially fried), raw meat and fondue.

### WHITE TRUFFLE

*Tuber magnatum Pico*

### SUMMER TRUFFLE

*Tuber aestivum Vitt.*

### BIANCHETTO TRUFFLE

*Tuber borchii* Vitt.

It is hunted in quite large quantities (weather permitting) during the period between January and April. To the least experienced, Bianchetto Truffle, or often called "Marzuolo" may look very similar to White truffle.

Bianchetto Truffle prefers sandy, sandy-loamy, and calcareous-clayey soils, and grows mainly in deciduous and coniferous woods. This variety of truffle is very common both in Italy (particularly in Tuscany, Marche, Umbria, Lazio and Southern Italy) and in Europe.

The aroma of Bianchetto Truffle is more tenuous at the beginning and becomes more intense when fully ripened. At this point, it gets stronger and more piquant tones that vaguely recall the scent of garlic. Its dimensions are generally small (and may vary from those of a hazelnut to those of a chicken egg).

Thanks to its very intense taste, small quantities of Bianchetto truffle are enough to upgrade any dish. It can be used raw, in thin slices, to give flavor to hot dishes, or during the creaming of pasta and risotto, together with butter and cheese. Last but not least, Bianchetto lends itself very well to the preparation of creams and sauces.
